

WE'VE BEEN WAITING FOR YOU

Are you currently enrolled in college, or a recent graduate with a degree in the health care field? If so, the Air Force Medical Service Corps (MSC) is looking for you. We offer tremendous leadership and management opportunities in various areas of hospital administration. The Air Force offers one of the nation's most diverse health care systems. It's a great career option for individuals who are interested in developing both specialized and general expertise in health care management.

Q What is the MSC mission?

A The MSC has more than 1,000 Air Force officers who serve as professional health care administrators throughout the world. MSCs work in various positions in clinics, hospitals, major commands and Air Staff, enabling health care professionals to provide the best quality health care to our active duty members and their families. If you ask any MSC, you will find that we believe we are in the best career field in the Air Force. We may be prejudiced, but it truly is an extremely diverse and rewarding profession.

Q What job opportunities are available for MSC officers?

A The MSC encompasses command, administrative, logistical, and educational functions supporting the provisions of health care to authorized DoD beneficiaries. This includes hospital administration, budgeting, managed care, health plan management, group practice management, strategic planning, human resources management, information management, medical readiness and facility management.

Q Are you more interested in applicants with general or specialized experience?

A The MSC is creating a new breed of MSC officer who will be a professional health care administrator with broad range of experience, and a specific expertise in a core functional area. The MSC officer of the future will spend half of his/her career in one specialty.

Q What are the qualifications?

A To be an MSC officer, you must have at least a bachelor's or a master's degree in one of the following areas: Health Care Administration, Public Administration, Accounting, Business Administration, Information Systems, Economics, Finance, Marketing, or Clinical/Health Systems Engineering. You must also be:

- In good health and physical condition
- A U.S. citizen
- Of good moral character
- Within current age requirements

Q What are the benefits of joining the Air Force and the MSC team?

A In addition to having an extremely rewarding career and opportunities for graduate study, you will also enjoy:

- An excellent salary with good opportunities for promotions
- Comprehensive medical and dental care
- Tax-free housing
- 100% tuition assistance
- 30 days of vacation with pay starting the first year

Q If I decide to join the MSC, what kind of training will I receive?

A You will attend Commissioned Officer Training (COT) at Maxwell Air Force Base, Ala., for four weeks. Afterwards, you'll attend the 11-week Health Services Administration Course at Sheppard Air Force Base in Wichita Falls, Texas.

MAKE A DIFFERENCE

The Air Force needs dedicated people interested in making a difference. We seek individuals who are passionate about providing quality health care to our active duty members and their families. The Air Force offers tremendous opportunities for those who want a career in health care administration. If you want to work in an extremely diverse and interesting environment, we've been waiting for you.

For more information on entering the MSC, contact the Air Force health professions recruiter nearest you. You may also contact the Air Force Personnel Center Medical Service Corps at 1-800-531-5811, ext. 5.
